

### Welcome back to the Speech Therapy Practice!

From the 11th of May onwards, the Dutch RIVM authority and the government are allowing us to slowly and carefully start planning face-to-face therapy sessions at the practice again. These will, however, have to take place under different circumstances than you are used to.

If it is necessary for your care, and can take place in a safe and responsible way, it will be possible to plan an appointment in the practice. We will also continue to provide services online.

In order to comply with the new measures adopted to fight Corona (COVID-19), we have introduced some new rules.

#### Please stay at home if you have any cold or flu like symptoms, including:

blocked nose  
runny nose  
sneezing  
throat ache  
coughing  
elevated temperature and/or fever

#### Please stay at home if:

You have experienced one or more of the above symptoms in the last 24 hours.

A housemate/family member has a fever and/or shortness of breath/difficulty breathing.

You or a housemate/family member has tested positive for Corona in the last 14 days.

#### General rules for treatment in the practice

- Come alone (brothers and sisters are not welcome)
- Please be on time, not too early and not too late (we are working with other start and end times than normal)
- If you do arrive too early, please wait outside or in the car; we will pick you up
- Wash your hands at home before and after the appointment.
- You can disinfect your hands in the practice at the reception.
- We will open the doors in the practice for you.
- We will not shake hands.
- We will maintain 1.5 metres distance from each other.
- There are plexi-glass screens on the tables at the practice – please don't touch them!
- Children come in alone (where possible). Homework will be communicated by email or phone.
- The toilet is out of use; make sure you use the toilet before you leave the house.
- Contact surfaces and materials must be cleaned after every appointment, therefore the appointments will be shorter than normal.
